• What additional feedback do you have for the course?

Comment
Gabriel is an excellent professor and shows he has genuine care for his students. 10/10
The only feedback I have is i wish the homework was more reflective of what was taught in class. I feel like him creating his own homework would really elevate this class and understanding of the information.
Dr. Abeyie is a great professor who truly cares about his students and the class material! I thoroughly enjoyed his class and I feel that he sets up students for success. I think some of the content of the textbook and homework modules/preclasses were not always related to what we went over in class or were moving faster than we went in class. I think I would have liked to learn more about what the textbook/macmillen was prepping on us and I think we could have dove deeper into the chapters, but nonetheless I enjoyed learning the material we did cover. There is definitely more opportunity to be more interactive with the material or go a bit more advanced, but for a pre-requisite class I understand that is not always the case or time permitting. Thank you Dr. Abeyie for all your hard work and dedication!
THIS IS THE BEST PROFESSOR I HAVE EVER HAD!!
Amazing professor, one of the best I've had!
great instructor
Great professor who made learning fun and made sure as a class we understood what the topic was. He gave us real world examples and showed us in real time what it looked like and did a great job preparing us for exams
None
Great professor overall. Took students feedback into consideration and adjusted the course to it, adding more practice problems and review guides.
Dr. Gabe was an amazing instructor and he has been one of the best professors I have had since being at this school. He is kind, humorous, and open to criticism which helped us and helped him understand what he can improve on. Not many professors like him and was a blessing to be able to be taught by him.
Dr. Abeyie is a wonderful instructor, I did not miss one class of his. He always asked the students how they wanted him to teach the material, either going over the slides or writing it on the board himself. He is a very kind and thoughtful instructor and always puts his students first. The course is interesting by itself, but he is the reason that I stayed engaged and actually learned something new. Could not recommend him enough!
Very good teacher. Losts of notes, not a lot to being "taught" though. I learned a lot, but I think there is definitely a way to better teach the information.
I enjoyed Dr. Abeyie's ECN-222 course a lot. He is a very sweet human being and wants the best for all of his students. He never hesitates to stop the lesson to help a student that may be confused. He also continuously offers extra help, office hours, and outside resources to help understand the course more thoroughly. I could not have asked for a better professor to teach this course and I hope he continues to express his joy and passion for his job forever.
Dr. Abeyie is one of the nicest professors I have ever had! It is evident he genuinely cares for his students and the topic he teaches, and I was excited to come to his class!
He taught the course very well. He made the test what we learned in class and kept my anxiety down. He made class very engaging and he has to be one of my favorite professors I've ever had.
Good instructor but unfortunately economics is a boring topic in itself.
I never really enjoyed learning about economics because I felt like I never learned important things I would actually be using until I took this course. Professor Abeyie is truly a great professor and you can really tell that he wants his students to be able to succeed. He encourages students to ask questions and makes sure we understand along the way.

Comment

Dr. Abeyie was a fantastic professor! His passion to educate helped me get the most out of this course. He would consistently turn to the class to answer questions and was incredibly supportive in the way he responded to student answers and questions. The way we lectured was perfect for comprehension and he came in everyday with a positive attitude. I wish all my professors taught the way Dr. Abeyie had. I have recommended his course to multiple people because of his effectiveness in teaching the material. I would be shocked if anyone has anything other than nice things to say about Dr. Abeyie because how good he was.
